

Weekly COVID-19 Update from the CEO

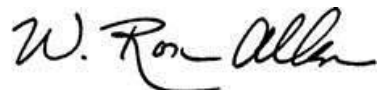

April 30, 2021

Jamestown Family Health completed their final drive-up vaccine clinic at Carrie Blake Park on Thursday. This amazing community effort helped successfully vaccinate the majority of eastern Clallam County and many more. I sincerely appreciate all the Jamestown Family Health Clinic staff who stepped up to the challenge and made this possible. In addition, I would like to thank Clallam County Fire District 3, City of Sequim Police Department, City of Sequim Public Works Department, The Community Emergency Response Team volunteers, and Trinity United Methodist Church. None of this would be possible without the tremendous group effort, communities that work together make a difference!

JFHC will continue to offer vaccines to their patients. Local pharmacies and other area health care providers also have vaccines available. Please encourage your family, friends, and neighbors to get vaccinated if they have not yet done so. Clallam and Jefferson County have more people vaccinated than many parts of the state, but we need to do better.

Our Tribe is still mourning the recent death of Tribal Councilman Kurt Grinnell. There will be a celebration of life for Kurt this Saturday at Jamestown Beach. Parking and shuttles to the service will be available from 7 Cedars and Sequim High School starting at 10:00 AM, as parking at the beach is somewhat limited. Given the ongoing pandemic, we ask all attendees to wear masks. A live stream of Kurt's Celebration of Life will be available as well at: <https://youtu.be/2qemrLii3l4>

We sincerely appreciate the outpouring of support we have received from the community this past week.

W. Ron Allen, Council Chair/CEO
